PUBLIC INFORMATION ANNOUNCEMENT FOR IMMEDIATE RELEASE

**Leon County Tax Collector Announces the Option to Pay Taxes and/or
Registration Renewals from Your Smart Phone,
Tablet or Other Mobile Device**

Paying your obligations to the Tax Collector just got more convenient for those who favor smart phones, tablets, or other hand-held mobile devices.

Doris Maloy, Tax Collector – Leon County said, "In recognition of the rapidly expanding popularity of smart phones and other mobile devices as a way to transact business and make payments on-line, this Office has now fully adapted our Web presence and on-line payment systems for convenient, full function use with all such devices."

Customers can simply go to [http://www.leontaxcollector.net/](http://www.leontaxcollector.net) using their hand-held device to gain full access to all the available information, services. In the past, the various functions available on that site worked much better for customers who got there via a desktop or laptop computer. Now, all aspects of the site work properly and conveniently from mobile devices as well.

Significantly, users do not need to download any applications to their devices to experience this new, more user-friendly response.

Maloy said, "National statistics tell us that more than 40% of on-line payments are now being made from mobile devices and that percentage is continuing to grow steadily. Accordingly, we saw the need to adjust our systems to the changing preferences of our customers. As the expectations of our customers continue to change in the future, this Office will continue adjusting our business practices so that we remain current with such trends. This is just one more way in which we continue to pursue our commitment to providing excellent customer service."

"It's Breezy, Quick and Easy!"
