**The Leon County Tax Collector Offers Internet Users "On-line"
Inquiry Capability for Tax Account Information**

Customers who wish to look up pertinent information on any tax account in Leon County can now go to <http://www.leontaxcollector.net> to see the current data in "real time" via the Internet, twenty-four hours a day, seven days a week.

This new online tax search and display functionality offers interested users significantly enhanced capabilities that are a radical improvement over the system that it replaced.

"Since this new tax account inquiry application provides users with information that is complete and accurate right up to the moment the inquiry is made, it will be far more useful to all potential users" said Leon County Tax Collector, Doris Maloy. She went on to note that "We are always glad to answer our customer's questions over the telephone, by letter, or in person, but this new internet based system makes it much more convenient for users who have access to the internet to get all of the information they want and need at any time of the day or night, even on weekends. We expect that mortgage companies, realtors, and other business users with specific needs for this type of information will find this enhanced system invaluable."

The system is designed to be very "user friendly". Any user can easily search for specific accounts by entering the name of the property owner, the street address, the parcel identification number, etc. and follow the prompts that will quickly lead you to the right account.

Mrs. Maloy said, "Everyone who may be interested is invited to visit us on line and give it a try!"

"Making Taxing Situations Easier"
